

## NEWS RELEASE

### Teijin to Participate in Outdoor Retailer Snow Show 2019

Tokyo, Japan, January 22, 2019 --- Teijin Frontier Co., Ltd., the Teijin Group's fiber and products converting company, announced today that it will participate in Outdoor Retailer Winter Market 2019, the world's largest international sports and outdoor trade fair to be held at the Colorado Convention Center in Denver, CO, U.S.A. from January 30 to February 1.

The Teijin Frontier stand (#MR208) will exhibit *DELTAPEAK* and related hybrid materials that offer excellent combinations of performance, appearance and texture for sportswear. The stand also will promote Teijin Frontier's environmentally friendly solutions, including microplastics pollution prevention, reducing hazardous chemicals usage, fossil resource conservation and CO2 emissions reduction.

Some of the many exhibits at the Teijin Frontier stand will include the following:

#### ***DELTAPEAK***

*DELTAPEAK* is a next-generation fabric that integrates physical properties, functionality and quality on a highly advanced level. Thanks to its dense, flat-knit surface, it is a light and stretchable form-fitting, anti-transparent and snag-resistant fabric. Various *DELTAPEAK* versions will be displayed, including a unique new material that is both form-fitting and highly natural like appearance.

#### ***Octa***

This fiber features a unique, highly modified cross section of eight projecting fins aligned in a radial pattern around a hollow fiber. Notable advantages include rapid wicking and drying as well as useful bulkiness. *Octa Neo* is a multilayer fiber that combines *Octa* fiber with various chemical and natural staple fibers.

#### ***SOLOTEX***

Polytrimethylene terephthalate fiber *SOLOTEX* is soft, stretchable, shape-retaining, dimensionally stable and brightly colored thanks to its molecular structure from a flexible spinning-like helix.

#### **Microplastics Pollution Prevention**

Non-brushed and heat-insulating materials that help to reduce microplastics will be exhibited. These will include a towel-like pile-structure material, a soft, bulky sweatsuit fabric in the *DELTAPEAK* series, and *Octa* integrated with insulation and lining materials.

The booth will also present Teijin Frontier's initiatives to protect the human rights of its technical interns from overseas.

Teijin Frontier looks forward to strengthening its recognition and cultivating new customers in the North American outdoor market through its appearance at the Outdoor Retailer Snow Show 2019.

#### **About the Teijin Group**

Teijin (TSE: 3401) is a technology-driven global group offering advanced solutions in the areas of environmental value; safety, security and disaster mitigation; and demographic change and increased health consciousness. Its main fields of operation are high-performance fibers such as aramid, carbon fibers & composites, healthcare, films, resin & plastic processing, polyester fibers, products converting and IT. The group has some 170 companies and around 19,000 employees spread out over 20 countries worldwide. It posted consolidated sales of JPY835 billion (USD 7.6 billion) and total assets of JPY 986.2 billion (USD 9 billion) in the fiscal year ending March 31, 2018.
