

Teijin to Participate in Outdoor Retailer Summer Market 2019

[Teijin Frontier Co., Ltd.](#), the [Teijin Group's](#) fiber and products converting company, will participate in [Outdoor Retailer Summer market 2019](#), the world's largest international sports and outdoor trade fair to be held at the [Colorado Convention Center](#) in Denver, CO, U.S.A. from June 18 to 20, 2019.

The Teijin Frontier stand (#MR208) will exhibit DELTAPEAK® and related hybrid materials that offer excellent combinations of performance, appearance and texture for sportswear. The stand also will promote Teijin Frontier's environmentally friendly solutions, including microplastics pollution prevention, fossil resource conservation and CO2 emissions reduction.

Some of the many exhibits at the Teijin Frontier stand will include the following:

New Cotton-like high-performance polyester fabric

A new ideal fabric for athleisure fashion which mixes randomly thick and thin parts in filaments, combining the look and texture of cotton with superior properties for moisture absorption, quick drying and UV protection. It is also eco-friendly as it uses fiber made with recycled raw materials.

DELTAPEAK®

DELTAPEAK® is a next-generation fabric that integrates physical properties, functionality and quality on a highly advanced level. Thanks to its dense, flat-knit surface, it is a light and stretchable form-fitting, anti-transparent and snag-resistant fabric. Various DELTAPEAK® versions will be displayed, including a unique new fabric that is both form-fitting and highly natural like appearance.

Octa®

This fiber features a unique, highly modified cross section of eight projecting fins aligned in a radial pattern around a hollow fiber. Notable advantages include rapid wicking and drying as well as useful bulkiness. Octa® Neo is a multilayer fiber that combines Octa fiber with various chemical and natural staple fibers.

SOLOTEX®

Partly plant-derived polytrimethylene terephthalate fiber SOLOTEX® is soft, stretchable, shape-retaining, dimensionally stable and brightly colored thanks to its molecular structure from a flexible spinning-like helix.

Teijin Frontier looks forward to strengthening its recognition and cultivating new customers in the North American outdoor market through its appearance at this show.

About the Teijin Group

Teijin (TSE: 3401) is a technology-driven global group offering advanced solutions in the areas of environmental value; safety, security and disaster mitigation; and demographic change and increased health consciousness. Its main fields of operation are high-performance fibers such as aramid, carbon fibers & composites, healthcare, films, resin

& plastic processing, polyester fibers, products converting and IT. The group has over 170 companies and around 20,000 employees spread out over 20 countries worldwide. It posted consolidated sales of JPY888.6 billion (USD 8.1 billion) and total assets of JPY 1020.7 billion (USD 9.3 billion) in the fiscal year ending March 31, 2019.
