

**NEWS RELEASE**

**Teijin Frontier to Exhibit Eco-friendly Materials  
at Première Vision Paris**

Tokyo, Japan, January 30, 2020 --- [Teijin Frontier Co., Ltd.](#), the [Teijin Group's](#) fibers and products converting company, announced today that it will participate in [Première Vision Paris](#), a premier global trade fair for fashion materials that will be held in Paris from February 11 to 13.

The “TEIJINTEX by TEIJIN FRONTIER” stand (6G30-6H29) will feature various eco-friendly materials, including recycled polyester and partially plant-derived fibers, a microplastic-saving fabric and fluorocarbon-free materials for Spring/Summer 2021. Teijin Frontier, which will mark its tenth appearance in the show, aims to further raise its profile, develop new customers and continue to expand its global market, mainly in Europe.

Exhibits will include the following:

**Recycled Polyester Fabric**

Several versions of this material will be presented, including ECOPET® recycled polyester fiber made from used plastic bottles, highly water-repellent fabric containing recycled polyester incorporating cutting and fiber waste and luxurious-feeling summer wool- and silk-like materials.

**SOLOTEX®**

Polytrimethylene terephthalate fiber is not just extra soft, stretchable and shape-retaining but also features a supple texture, dimensional stability and brightly colors owing to its spring-like fiber structure. As a partially plant-derived material, it helps to conserve fossil resources. Continuing from the last season, various exhibits will be organized to showcase items such as a cotton-like fabric incorporating SOLOTEX® staple fiber.

**DELTAPEAK®**

DELTAPEAK® next-generation fabric offering superior physical properties and functionality as well as a unique appearance and texture. The exhibit will include various evolved materials, from this range that is eco-friendly fiber made from recycled materials, a heat-retention fabric for reduced microplastic pollution and a fabric with a natural-like texture and appearance for diverse uses.

**Eco-friendly Water-repellent Materials**

Teijin Frontier also will exhibit highly water-repellent fabric that is free of both

fluorocarbon and perfluorooctanoic acid as an eco-friendly and highly functional fashion material.

### **About the Teijin Group**

Teijin (TSE: 3401) is a technology-driven global group offering advanced solutions in the areas of environmental value; safety, security and disaster mitigation; and demographic change and increased health consciousness. Its main fields of operation are high-performance fibers such as aramid, carbon fibers & composites, healthcare, films, resin & plastic processing, polyester fibers, products converting and IT. The group has over 170 companies and around 20,000 employees spread out over 20 countries worldwide. It posted consolidated sales of JPY888.6 billion (USD 8.1 billion) and total assets of JPY 1020.7 billion (USD 9.3 billion) in the fiscal year ending March 31, 2019.
